PROFESSIONAL SUMMARY

Full-stack software engineer with nearly three years of experience developing backend services and web applications across logistics, e-commerce, and IoT. Experienced with Node.js, NestJS, PostgreSQL, MongoDB, and AWS; led a five-developer team and delivered API and real-time features.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, Python, SQL
Backend: Node.js, Express.js, NestJS, Spring Boot, Spring MVC, REST APIs, WebSockets, MQTT
Data and Cloud: PostgreSQL, MongoDB, Redis, AWS (EC2, S3, Lambda), Docker, Linux
Frontend and Tools: React, Next.js, React Native, Tailwind CSS, Material-UI, Git, GitHub, Jira, Postman

PROFESSIONAL EXPERIENCE

Metavative, Karachi | Senior Full Stack Software Engineer | September 2026 - October 2026

- Developed backend APIs and admin dashboard features for competition and group management.
- Built full-stack features spanning request validation, service logic, and database queries.
- Collaborated with the development team to clarify requirements, resolve issues, and deliver features.

Mac World Technology, Karachi | Team Lead | June 2023 - January 2026

- Led a five-developer team in building and maintaining backend and full-stack applications.
- Developed REST APIs and services using Node.js, NestJS, Express.js, PostgreSQL, MongoDB, Redis, and AWS.

PROJECTS

Moving7 - Logistics Platform: Built REST APIs, live tracking, automated notifications, and location-based workflows.
Signs365 - Digital Signage: Built a WebSocket backend for real-time device communication.
StarBike IoT: Developed MQTT and REST API features for bike tracking and predictive maintenance workflows.
Gamer Gizmo - E-Commerce: Built product, inventory, JWT authentication, role-based access, and Stripe payment modules.
Enterprise Backend API System: Built CRUD APIs using Java, Spring Boot, Spring MVC, and DTOs.

EDUCATION

BS Computer Science, University of Karachi (UBIT) | 2019 - 2023
